

## **Resolution for the Replacement of the Diebold Voting Machines**

**WHEREAS**, *Today's DRE Touch- Screen systems remain controversial and the absence of a paper Ballot places importance upon the subtleties and security of computer code. How votes are Counted, and who counts them are issues as important as who votes.*

**WHEREAS**, *Without paper ballots, which are counted using optical scan systems, elections Officials have no way to go back and conduct an audit to see whether votes were counted Correctly;*

**WHEREAS**, *the potential corruptibility of the Diebold Voting System is beyond question, for years Researchers have been aware of numerous security flaws where a hacker for as little as \$10.50 In parts and an 8<sup>th</sup> grade science education could change voting results while leaving absolutely No trace of the manipulation behind, according to Vulnerability Assessment Team at Argonne National Laboratory;*

**WHEREAS**, *Our representative republic depends upon the validity and security of the vote and it is the foundation for legitimate government;*

**WHEREAS**, *any voting system that is incapable of audit and potentially vulnerable to Undetectable fraud undermines the principal of good government and lends suspicion to the Legitimacy of our election process;*

**BE IT RESVOLVED**, *the Walker County Republican Party advocates for the replacement of the Diebold Voting Machines with a new voting system that produces a paper trail and the ability For audit and do hereby request that this resolution be forwarded to the Governor, Lt. Governor, Speaker of the House, the Fourteenth District Republican Party Leadership and the State of Georgia Republican Party Leadership.*
